Full-Stack Web Developer | TypeScript • Angular • React • Node.js • SQL • AWS

SUMMARY

Full-stack developer with a B.S. in Computer Information Technology (CSUN, 2025) and 1.5 years building and operating production e-commerce storefronts that serve 10,000+ monthly users and \$40K+ in average monthly revenue. TypeScript, Angular, and React front ends; Node.js and SQL back ends; Stripe, PayPal, and Square payments; QuickBooks and Google Analytics integrations; deployed on AWS and Cloudflare. Ships automation and AI-chatbot features with Zapier and Claude/ChatGPT.

SKILLS

Languages: TypeScript, JavaScript, Node.js, Python, PHP, SQL, HTML, CSS, Bash

Front end: Angular, React, responsive HTML/CSS, Figma

Back end and data: Node.js, REST APIs, SQL databases, AWS RDS, webhooks

Cloud and DevOps: AWS (EC2, RDS, EBS), Cloudflare (DNS, Workers), Docker, Git, GitHub, GitHub Actions (CI/CD), Linux, Hostinger

Integrations: Stripe, PayPal, Square, QuickBooks, Google Analytics (GA4), Zapier (webhooks, Tables, Chatbots), Shopify, WooCommerce, WordPress

Workflow: Jira, Slack, Microsoft Teams, VS Code

EXPERIENCE

Full Stack Developer (Freelance) — Limited Edition Group, Los Angeles, CA

Apr 2025 – Present

- Build and maintain direct-to-consumer e-commerce storefronts in TypeScript, HTML/CSS, Node.js, and SQL that serve 10,000+ monthly users and support \$40K+ in average monthly online revenue
- Integrated Stripe, PayPal, and Square payments and connected storefronts to SQL databases for inventory and orders
- Integrated QuickBooks accounting and Google Analytics (GA4) conversion tracking through REST APIs and Zapier
- Deploy on AWS (EC2, RDS, EBS), Hostinger, and Cloudflare; manage DNS, custom domains, SSL, and redirects; restored a live storefront after a hosting suspension by redeploying to Cloudflare Workers with a DNS cutover
- Built customer-facing AI chatbots (Zapier Chatbots on Claude and ChatGPT) and maintain their knowledge base; removed dead-end conversation flows and corrected answer accuracy
- Designed Zapier automations for payment routing by processor and time of day, webhook order intake into Zapier Tables, Slack alerts, and AI-generated customer emails; debugged a storage-loop fault and a midnight time-zone edge case
- Ran an SEO program (Google Search Console data, on-page optimization) that more than doubled search clicks in 6 months
- Built HTML transactional email templates and optimized image assets (metadata stripping with exiftool, svgo, Ghostscript) for privacy and page weight

IT Help Desk Technician (Contract) — Fralock, Chatsworth, CA

Jan 2023 – Aug 2023

- Resolved ~20 Tier 1 tickets per day for Windows and macOS users; administered Active Directory accounts and supported Microsoft 365, VPN, printers, and VoIP
- Documented work in the ticketing system and participated in change-control meetings

IT Technical Support Intern — California State University, Northridge (Computer Lab)

Jan 2019 – Mar 2020

- On-site technical support for students, faculty, and staff: device setup, OS and software installation, account management, network troubleshooting

PROJECTS

- **My Magic Designs** (mymagicdesigns.com) — Custom-apparel e-commerce site hand-built in HTML, CSS, and JavaScript on Hostinger; the order form posts through a webhook into Zapier Tables and triggers automated customer emails; credit-card checkout with tiered shipping options
- **Themed Weather Web Application** — Location-aware weather app that consumes a third-party weather API, hosted on AWS ([demo video](#))
- **manuelmarin3.com** — Personal portfolio site in HTML and CSS, deployed on GitHub Pages through a Git workflow

EDUCATION

B.S. Computer Information Technology — California State University, Northridge

May 2025

CERTIFICATIONS

- Google IT Support Professional Certificate — in progress, expected Nov 2026
